

# Blackbird Lyrics

---

## English

Blackbird blackbird singing  
Only song in the dead of night  
Blackbird blackbird take these  
Broken wings and learn to fly tonight

Blackbird blackbird take these  
Sunken eyes and learn to look at me  
Blackbird blackbird waiting for  
The moment and i such you free  
Fly away to the lie within  
Into the long dark night

So fly away to the lie within  
Into the long dark night  
So fly away to the lie within  
Into the long dark night
