

Dance With Me Lyrics

English

Never knew your life's
Shining you just got
To take your place
For that silver lining feel
The fire in your face

Move it move it show me
Show me show me how to do it
Shake it break it show me
Show me show me how to make it

There's no waiting for
Tomorrow tomorrow
Get up your time is now

There's a way to feel a sorrow
Come on lemme show you how
I wanna show you how

Move it move it show me
Show me show me how to do it
Shake it break it everybody come on

Dance with me dance with me
Come and dance with me
Come on dance with me
Dance with me
Come and dance with me

Move it move it show me
Show me show me how to do it
Shake it break it show me

Show me show me how to make it
Move it move it show me
Show me show me how to do it

Shake it break it show me
Show me show me how to make it

Dance with me dance with me
Come and dance with me
Come on dance with me
Dance with me
Come and dance with me

Feel your body taking over
To the rhythm deep inside
Moving like a rock and roller
Gotta let your feet decide
O let my feet decide

Move it move it show me
Show me show me how to do it
Shake it break it take it to
The rhythm and make it

Someone said that life's
Dance you just gotta play your part

Never ever loose a chance
Don't loose don't
Loose what you break
No strings around your heart
Common break no strings..

Move it move it show me
Show me show me how to do it
Shake it break it everybody come on

Dance with me dance with me
Come and dance with me
Come on dance with me
Dance with me
Come and dance with me

Move it move it show me
Show me show me how to do it

Shake it break it show me
Show me show me how to make it
Move it move it show me
Show me show me how to do it
Shake it break it show me
Show me show me how to
Make it never knew
Your life's shining you
Just got to take your place
