

Love You Till The End Lyrics

English

To write your name down
On piece of paper
Then strike it off better
And i am in need it
But you remember this once
And once forever
That i will be there
When you need me
Because i love you
I love you till the end
Because i love you
I love you till the end
Because i love you

Because i love love love
Because i love love love
Because i love love love

Don't write me oh so soon
Cuz i will show
Improve to you
That i can be someone
Timelong special
In your heart
I know this love is for you
And i will spend
My life with you
Because i love you
I love you till the end
Because i love you
I love you till the end
Because i love you

Because i love love love
Because i love love love
