

Sex Is Good Lyrics

English

Ninety years ago
There was a doctor called Freud
He had this patient
This little guy named Lloyd.
All Lloyd thought about
Was just getting laid.
He tried to get a Sheila
Lyricsbogie.com
He even tried his maid
Searching for some action
He was looking out for fun
Searching for some loving
Still he just couldn't get none
Some gals were black
Some gals were white
Some gals were heavy
Some not too bright
He just didn't care,
He just wanted all
He would do anything,
He would even crawl
In his desperation,
He called Dr. Sigmund Freud
Said help me doctor,
Help poor horny Lloyd
Dr. Freud said
Sex is good, and sex is fine
But sex all the time
Nein nein nein
Sex is good, and sex is fine
But sex all the time
Nein nein nein nein nein

So Lloyd just kept on searching
Down life's lonely road

For that special gal who'd
Help him with his load
Someone he could lean on
Someone he could love
Someone he could finally call his own
Till he met mary who finally made him see
There's more to life baby than
Just the birds and the bees
So now things have changed
Lloyd has found his way
To love and marry a little baby way
Now that lloyd is happy
The good doctor's dead
You could still tell there's
Someone on his head
Sometimes he remembers
What that dr. Said
Now he's sure that freud was
Crazy and out of his head
Cause he knows that
Sex is good, and sex all the way
Sex all the time, yeah yeah yeah
Sex is good, and sex all the way
Sex all the time, yeah yeah yeah yeah yeah

He remembers how things were
And what the doctor said
He thought the man was crazy
And way out of his head
Sex is good, and sex all the way
Sex all the time, yeah yeah yeah
Sex is good, and sex is fine
Sex all the time, it blows my mind
Sex all the time, it blows my mind
Sex all the time, it blows my mind
Sex is good and sex is fine
Sex all the time, it blows my mind
Sex is good, and sex all the way
Sex all the time, yeah yeah yeah
Sex is good, and sex all the way

Sex all the time, yeah yeah yeah yeah yeah.
