

Shadows Of The Night Lyrics

English

Shadows of the night,
They chase the moon
They fear the light
They are everywhere,
You may not be aware

Spirits, sins, skies
They haunt the darkness of night
Don't hang around,
There is something in the air
Shut your windows,
Lock the doors,
Stay away all night
No use running,
They keep on coming,
Shadows of the night

Visions in dream in
Desperation make you scream
You shake with fear
Just hanging on for life
Is not a slightest sound,
You scared to death
You turn around
Is someone there,
There are shadows everywhere
Shut your windows,
Lock the doors,
Stay away all night
No use running,

They keep on coming,
Shadows of the night.
