Teardrops Lyrics

English

Naina lagiyqan barishaan..
Te sukke sukke sapne ve pij gye..
Naina lagiyaan barishaan..
Rove palkaan de kone wich neend meri..

Naina lagiyaan barishaan..
Hanju digdey ne chot lage dil te..
Naina lagiyaan barishaan..
Rut birha de badlaan di chaa gayi..

If you are burning i am the flame..
Now you are sharing half of the pain..
Tables turning part of the game..
We fell out of love but who was to blame..

You you didn't remain..
Me me living in fame..
Now we walk on two different paths..
When it used to be the same lane..

I am not going to brag and say that..
You wont find another like..
But i d like to see..

How somebody else could be your lover type..

Our kodak moments are now..
Tainted memories of the past..
I will stay positive..
You keep negatives of our photographs..

Naina lagiyaan barishaan..
Te sukke sukke sapne ve pij gye..
Naina lagiyaan barishaan..
Rove palkaan de kone wich neend meri..

Naina lagiyaan barishaan..
Hanju digdey ne chot lage dil te..
Naina lagiyaan barishaan..
Rut birha de badlaan di chaa gayi..

How many nights has it been now..
I dont even know where you live now..
I dont want to talk about how we coulda woulda..
But we should ve been married with a kid now..

We even had the names picked out and..
Time stood still but its racing now..
Tell me why did you leave for..
On the same track but you took a detour..

I just want to know why you lied..
You ain't ever gonna have..
What we had with a new guy..
Deep down you know that i am right..

Remember the night i was holding you tight..
And you told me to never let go..
I pray to the angels heaven is involved..
And they are craying..

It is their tears that are falling..
And that is the rain that we see every autumn..

Naina lagiyaan barishaan..
Te sukke sukke sapne ve pij gye..
Naina lagiyaan barishaan..
Rove palkaan de kone wich neend meri..

Naina lagiyaan barishaan..
Hanju digdey ne chot lage dil te..
Naina lagiyaan barishaan..
Rut birha de badlaan di chaa gayi.
