

The Climb Lyrics

English

You swept me off my feet
You were so strong and i so weak kid
Build me up from pilot plane to peek
We drove for miles around
We loved some rights
Without some found truths
Felt so all we need that
We were young

The glass grew tall and lean
We tossed the trash
We work, we cleaned
We rolled around in
Lyricsbogie.com
Iron trampolines

And then you got upset
You clenched your fist
Your face turned red
You puckered up your lips
And you turned your head

The climb is so much steeper
Than the ground beneath our feet
The trouble came around though
But you skipped right up and leave
But you stood up and i sat down
You sang your prayers
And you said your poems
I waited for you to come
But you took too long.
