And want to marry she

I want to marry she
I want to marry she

I want to settle down here
And have my family
I going by the pundit
To fix up the wedding

I want my trini larki
To be my dulahain

I come down to trinidad
And see a sweet larki
Now i don't want to go back
And fall in love with she

She will teach me howa
To bele the roti
I will teach you howa
To chamkme tarkari

She will teach me howa
To bele the roti
I will teach you howa
To chamkme tarkari

She will be my dulahain
And i'll be the dulha
And though we go say
Dance ki chutney soca

I come down to trinidad
And see a sweet larki
Now i don't want to go back
And fall in love with she

I come down to trinidad
And see a sweet larki
Now i don't want to go back
And want to marry she

Morning, noon and night
I will hug her tight
When i see my larki
She make me feel alright

Morning, noon and night
I will hug her tight
When i see my larki
She make me feel alright

I will give her diamond
I will give her gold
I love my trini larki
With my whole heart and soul

I come down to trinidad
And see a sweet larki
Now i don't want to go back
And fall in love with she

I come down to trinidad
And see a sweet larki
Now i don't want to go back
And want to marry she

Just how the birds

Flies in the sky
Just so my love
For her will never ever die

Just how the birds
Flies in the sky
Just so my love
For her will never ever die

I will give her plenty
Baccha, and bacchi
And everybody will come to the barahi

I come down to trinidad
And see a sweet larki
Now i don't want to go back
And fall in love with she

I come down to trinidad
And see a sweet larki
Now i don't want to go back
And want to marry she

I want to marry she
I want to marry she

I want to settle down here
And have my family
I going by the pundit
To fix up the wedding

I want my trini larki
To be my dulahain

I come down to trinidad
And see a sweet larki
Now i don't want to go back
And fall in love with she

I come down to trinidad
And see a sweet larki

Now i don't want to go back
And want to marry she

I love you trinidad & tobago
Sonu nigam loves you
Everybody, all the boys and the girls
Move your body and shake your hips.
