

# You Have To Love Me Lyrics

---

## English

Try to understand this feeling once again  
Try to understand this silence of pain  
Memory seen to failed away  
And come back to me  
Still we feel away  
Still living in my heart  
I am clinging to with dream  
Lyricsbogie.com  
That falling of heart  
Why does it have to end this way  
I need a friend  
How many times this streason  
How could it all sleep away  
How can i find a reason  
How can i make you stay  
You have to love me, love me to  
You have to love me, love me to

Hide terrible blind attitude  
The shaddow of the past  
Wo now the finish wrong  
It has me a fault  
Now as a bleed you walk away  
It' spelispion  
How many times this streason  
How could it all sleep away  
How can i find reason  
How can i make you stay  
You have to love me, love me to  
You have to love me.
